---

Professional Experience

UI/UX Design Intern

Techxplores – Anantapur | **Jun 2025 – Present**

- Collaborated with senior designers to create **responsive and accessible web and mobile interfaces**.

- Designed **wireframes, prototypes, and user flows** in **Figma** for client projects.

- Conducted **user research and usability testing**, incorporating feedback into design iterations.

- Partnered with developers to ensure **pixel-perfect implementation** of UI designs.

- Applied **information architecture and interaction design principles** to improve usability.

Key Projects

AM General Cleaning – Service Booking Platform

- Designed a **multi-service booking platform** (car detailing, house cleaning, carpet care).

- Created **category-based layouts** with intuitive navigation and CTAs, boosting conversions.

- Developed **booking flows** with package selection, scheduling, and secure payments.

- Designed **order tracking and dashboards**, improving transparency and repeat bookings.

Car Care – Website & Mobile App

- Designed and developed the concept for a **one-stop car service platform** (wash, repairs, gas, accessories).

- Created **wireframes, detailed screens, and workflows** for customers and service providers.

- Defined features: **booking system, payment gateway, reviews, location-based search, and shop profiles**.

- Built **admin dashboard structure** for managing services, customers, and shops.

- Prepared **marketing and launch strategy** including rollout plan, growth roadmap, and user acquisition tactics.

- Used **AI image generation tools** to create visuals, infographics, and mockups.

Memora – Personal Asset Management App

- Designed **end-to-end UX flow** including OTP login, onboarding, dashboard, asset management, reminders, and profile.

- Built **brand identity** with logo, tagline, and custom vector illustrations (SVG).

- Conducted **competitor & user research**, created personas, and defined feature structure.

- Organized **asset data structure** (purchase info, warranty, receipts, serial numbers, exchange policy, accessories).

Projects (Portfolio)

Aniexpo – Event Website & App (Personal Project, 2024)

- Designed **responsive layouts** for anime events, ticket booking, and merchandise shopping.

- Improved **user interaction by 40%** and readability by 25% across devices.

- Delivered **wireframes, prototypes, and mockups** in **Figma**.

Sangeeth – Music Streaming App (Personal Project, 2024)

- Designed a **modern, sleek interface** with personalized playlist flows and recommendation systems.

- Created **accessible, responsive designs** optimized for multiple devices.

- Produced **storyboards and prototypes** to visualize the full user experience journey.

Education

M.Sc. in Computer Science – Government Degree College for Men, Anantapur | 2022 – 2024
